

NOW HIRING

TECHNICAL TRAINER & SERVICE SPECIALIST

KEY RESPONSIBILITIES:

- Execute shop overhauls to rebuild proportioners, fluid sections, pumps, & spray guns.
- Troubleshoot complete mobile rigs (diesel generators, rotary compressors, etc.).
- Diagnose technical issues over the phone with field crews.
- Train applicators on safe rig operation, chemical principles & building science.
- Integrate building science and moisture management principles into applicator education.

WHAT YOU NEED:

- **Experience:** 3-5+ years hands-on experience operating, troubleshooting, & repairing spray foam mobile rigs.
- **Mechanical Skill:** Proven ability to diagnose and repair high-pressure fluid systems.
- **Knowledge:** Deep technical knowledge of industry equipment (Graco, PMC, Carlisle).
- **Communication:** Clear, patient teaching style; able to explain complex science simply.
- **Travel:** Willingness to travel 60% regionally for field training.
- **Location:** In-person, Yulee, Florida.
